

1. Press **Ctrl+Alt+Delete** to unlock the computer. After clicking **OK** at the next screen, click the **Cisco AnyConnect** icon located at the lower-right corner.

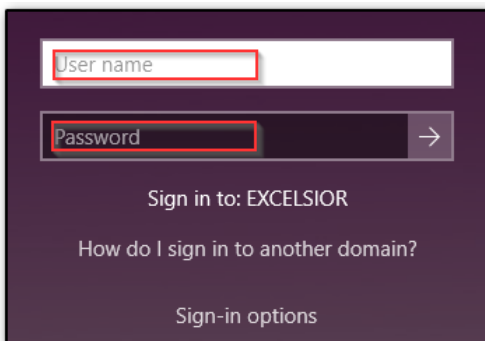

Note: You must have an internet connection.

2. The Cisco AnyConnect Secure Mobility client will appear. Verify that the connection address is **vpn.excelsior.edu** and click **Connect**. Then enter your Excelsior College Username and RSA Passcode (4-digit PIN first).

3. You can then proceed to log into Windows after accepting the terms.

4. Log into Windows using your standard Excelsior College credentials.

Note: You will be connected to the Excelsior College network after logging into Cisco AnyConnect.
